DETAILED ACTION

Response to Arguments

Applicant's arguments, see Amendment After Final, filed 1/9/06, with respect to claims 1-17 have been fully considered and are persuasive. The Final Rejection of 11/1/05 has been withdrawn.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose nor reasonably suggest moving picture coding means for producing compressed moving picture data having a high image quality by re-encoding still picture data coded using a still picture moving format into a moving picture coding format and displaying the data on a device capable of displaying compressed moving picture data as a still image using the moving picture coding format, and determining an area of that image in response to a user selection of a portion of the area and notifying the moving picture coding means of that area.

Claims 1-17 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
